Guided by the policy of providing health care facilities to almost all categories of individuals, Religare Health Insurance (RHI) has introduced 'Care Freedom' product that is specially designed for the large section of people who go uninsured or underinsured due to the results of pre-policy medical tests or they are suffering from pre-existing illnesses or are relatively progressed in age.

Care Freedom product will not insist on any pre-policy medical check-ups for prospects of all ages and for all levels of sum insured. In fact, recognizing the special needs of those who purchase this policy, the waiting period in the case of pre-existing diseases is as low as 2 years as against the usual 4 years in case of most standard policies. But like basic policies, this product does not cover diseases that surface in the initial 30-day waiting period, except those arising out of accidents, and other standard exclusions.
